

CO₂ GREEN

The **GREEN CO₂** produced in the **LIFE CO₂IntBio** is obtained through the purification of the CO₂ present in the combustion gases of a biomass power plant (renewable energy) adjacent...

Commercial uses of CO₂

CO₂ as a commercial product has multiple applications and has significant demand in different activity sectors:

Food

CARBONATION, COOLING, PACKAGING...

Greenhouses'

IMPROVEMENT OF PLANT GROWTH BY OPTIMIZING GREENHOUSES' ATMOSPHERES.

Water treatment

PH REDUCTION. WATER REMINERALIZATION AND CARBONATION.

Cooling

ALTERNATIVE TO FLUORINATED GASES.

Industrial sector

WELDING AND CUTTING; MANUFACTURE OF POLYURETHANE AND FOAMED PLASTICS; CLEANING

Pharmaceutical and Sanitary Sector

REFRIGERATED TRANSPORT OF DRUGS AND ORGAN AND TISSUE SAMPLES; CROP GROWTH.
